TOTAL	4,489,221	100.0000	311

Data source: http://www.fec.gov/pubrec/fe2016/2016presgeresults.pdf

There are two components to calculating the number of delegates each Libertarian Party affiliate is entitled to send to a national convention. One component is based on the number of sustaining members in that affiliate (see LP Bylaws Article 10.3.a and 10.4).

The second component calculated above is established by LP Bylaws Article 10.3.b as follows:

"One delegate for each 0.35 percent, or fraction thereof, of the votes cast nationwide for the Libertarian Party candidate in the most recent presidential election, cast in that affiliate's state."

<u>The numbers above are not your entire delegate allocation for the 2018 convention</u>. This is only part of the formula. The count of sustaining members in your affiliate will be updated as of 11/30/17, and then the full delegate allocations will be calculated and distributed.

Alicia Mattson LNC Secretary
